

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

THE
AMERICAN NATURALIST,

An Illustrated Magazine

OF

NATURAL HISTORY.

EDITED BY

EDWARD D. COPE AND J. S. KINGSLEY,

ASSISTED BY

W. S. BAYLEY, CHARLES E. BESSEY, F. S. LEE, T. H. MORGAN,

CLARENCE M. WEED, THOMAS WILSON,

C. O. WHITMAN.

VOLUME XXV.

Philadelphia :

FERRIS BROS., PUBLISHERS,

COR. SEVENTH AND FILBERT STS.,

1891.

CONTENTS.

	PAGE.
Some Recent Papers on Earthworms, J. S. KINGSLEY.	1
The Mechanical Origin of Structure in Pelecypods. (<i>Illustrated.</i>) ROBERT TRACY JACKSON.	11
Sexual Immobility as a Cause of the Development of the Sporophyte. CONWAY MACMILLAN.	22
A Commensal Annelid. (<i>Illustrated.</i>) E. A. ANDREWS, PH.D.,	25
Recent Studies of the Vertebrate Head. H. W. NORRIS.	95
Some of the Causes and Results of Polygamy among the Pinnipedia. C. C. NUTTING.	103
On the Genesis of the Chromatophores in Fishes. (<i>Illustrated.</i>) CARL H. EIGENMANN.	112
An Indian Grave in Western New York. A. L. BENEDICT, M. D.	119
Are Acquired Variations Inherited? H. F. OSBORN.	191
On the Origin of the Galapagos Islands. G. BAUR.	217
The Biological Work of American Experiment Stations. C. M. WEED.	230
The Evolution of the Circulatory Organs. (<i>Illustrated.</i>) W. C. CAHALL.	237
A Few Native Orchids. MRS. P. LOVELL.	248
Record of American Zoology. J. S. KINGSLEY. 252, 343,	548
Mortuary Customs of the Navajo Indians. (<i>Illustrated.</i>) R. W. SHUFELDT.	303
On the Origin of the Galapagos Islands. (<i>Concluded.</i>) G. BAUR.	307
Review of the Progress of American Invertebrate Paleontology for the year 1890. CHAS. R. KEYES.	327
Recent Studies of the Vertebrate Head. H. W. NORRIS.	334
Wandering Cells in Animal Bodies. (<i>Illustrated.</i>) J. S. KELLOGG.	511
A Recent Lava Flow in New Mexico. (<i>Illustrated.</i>) R. S. TARR.	524
The Origin of the Avifauna of the Bahamas. T. M. CHAPMAN.	528
On the Genus Chlamydomorphus. (<i>Illustrated.</i>) D. D. SLADE.	540
A Review of the Discovery of the Cretaceous Mammalia. (<i>Illustrated.</i>) HENRY FAIRFIELD OSBORN.	575
Notes on Mesozoic Mammalia. O. C. MARSH.	611
The Coming Man. S. V. CLEVELER.	617
Where Amateur Photographers can be of Assistance to Science. (<i>Illustrated.</i>) DR. R. W. SHUFELDT.	626
On the Relations of Carettochelys, Ramsay. (<i>Illustrated.</i>) G. BAUR.	631
The Litopterna. (<i>Illustrated.</i>) E. D. COPE.	685
The History of Garden Vegetables. (<i>Continued.</i>) E. L. STURTEVANT.	694, 801
A Reply to Professor Marsh's "Note on Mesozoic Mammalia" (<i>Illustrated.</i>) HENRY F. OSBORN.	775
Hemlock and Parsley. W. W. BAILEY.	784
The Problem of the Soaring Birds. (<i>Illustrated.</i>) J. LANCASTER.	787
A Sketch of the Geology of South America. GUSTAVE STEINMANN.	835
Notes on the Hearts of Certain Mammals. IDA H. HYDE.	861
Vivisection. FREDERICK GAERTNER.	864
Among the Prehistoric Monuments of Brittany (<i>Illustrated.</i>) ALPHEUS S. PACKARD.	870
The Double Monster Rosa-Josepha Blazek. <i>Revue Scientifique</i>	891
Language and Max Müller. S. V. CLEVELER, M.D.	951

	PAGE.
The Permian, Triassic, and Jurassic Formations in the East Indian Archipelago [Timor and Rotti]. AUGUST ROTHPLETZ	959
The Hat Creek Bad Lands (<i>Illustrated</i>). J. S. KINGSLEY	968
On the Quantity and Dynamics of Animal Tissues. J. LAWTON WILLIAMS	972
The Island of Mindoro. J. B. STEERE	1042
The Comparative Morphology of the Fungi. J. E. HUMPHREY	1055
Rocky Mountain Rhizopods. EUGENE PENARD	1070
Life-History of the Vermilion-Spotted Newt (<i>Diemyctylus viridescens</i> Raf.) SIMON H. GAGE	1084
RECENT BOOKS AND PAMPHLETS.—39, 132, 356, 474, 561, 644, 722, 810, 896, 993	1113
RECENT LITERATURE.—Hyatt's Insects, 42—Justus Roth's <i>Allgemeine Geologie</i> , 135—Sir Samuel Baker on Wild Beasts and Their Ways (<i>Illustrated</i>); Mexicoology, 260—Hyatt and Arms on Insecta, 358—Wheeler's Report Upon the United States Survey West of the One-Hundredth Meridian, 476—The Oyster: A Popular Summary of a Scientific Study, 563—Catalogue of the Fossil Reptilia and Batrachia (Amphibia) in the British Museum, Parts II., III., and IV.—A. S. Woodward's Fossil Fishes; Mrs. Bodington on Evolution, 644—Ameghino on the Extinct Mammalia of Argentina; Fürbringer's Researches on the Morphology and Systematic of Birds; Miller's North American Geology and Paleontology; Bergen's Primer of Darwinism; Morris on Civilization, 725—Morris's Aryan Race; Boulenger on Rhynchocephalia, Testudinata, and Crocodilia; Frazer's Mineralogical Tablets, 812—Geological Survey of Arkansas, 1889; Zoological Geography; The Ancestors of Our Animals; Morphology of the Avian Brain, 899—Doelter's <i>Allgemeine Chemische Mineralogie</i> ; Fewkes' Coelenterata and Echinoderms, 995—Flower and Lydekker's Mammals; Kunz's Gems and Precious Stones of North America	1116
EDITORIAL.—Science-Teaching in Common Schools, 36—Recent Progress in the Study of the Tubercle Bacillus; Brains for Sale; The Geological Survey of Georgia, 122—The "Complete Unnatural History;" New National Parks, 470—Prof. Karl Vogt and the Naturalists; Extra-American Explorations; New Associates of the National Academy of Sciences; Resignations of Philadelphia Members of Committee on I. C. G. for 1892; The New Century Dictionary, 558—Pre-Occupied Names, 640—Women's Waists; Marine Biological Laboratories; Meeting of the American Geological Society; Execution by Electricity, 717—Meeting of the American Association for the Advancement of Science; Meeting of the American Society of Geologists; International Congress of Geologists, 807—Scientific Journals; The Demise of the <i>Entomologia Americana</i> ; Uniformity in Geological Nomenclature, 895—Tariff Taxation on Scientific Works; Major Powell's Geological Maps; Recent Progress in the Discovery of the Phylogeny of Man, 990—Endowments of Original Scientific Research; Reception Committee of the Washington Meeting A. A. S.	1112
GENERAL NOTES.— <i>Geography and Travel</i> : The Sierra Madre Exposition, 273—The Peary Exploring Expeditions for Greenland and the Survey of Unexplored Regions of the Arctic Circle, 649—A Visit to the Philippine Islands of Masbate and Marinduque, 731—Dr. Baur's Trip to the Galapagos Islands	902
<i>Geology and Paleontology</i> : A Review of the Discovery of the Cretaceous Mammalia; On a New Species of <i>Palaeosyops</i> (<i>Illustrated</i>); On Two New Perissodactyles from the White-River Neocene of Nebraska; The	

Tertiary Formations of Western Texas; The Eighth Volume of Reports on the Geological Survey of Illinois, 44—Discovery of Fish Remains in Ordovician Rocks, 137—The Cuyahoga Shales; the Pilot Knob of Texas; The Sierra Nevada of Central California; The Origin of the Great Lakes; Age of the Glacial Period, 275—On a Collection of Fossil Birds from the Equus Beds of Oregon; Flora of the Great Falls Coal Field, Montana; Secular Disintegration of Rocks; The Origin of the Bahama Islands, 359—On the Non-Actinopterygian Teleostomi; Paleontology of Argentina; Water-Marks on Paleozoic Rocks; The Mutual Relations of Sand-Elevation and Ice-Accumulation During the Pliocene Period; Sub-Marine Channels of the Pacific Coast, 479—On the Crystalline Schists in the Lepontine Alps; The Australian Cenozoic Fauna; Fossil Fishes of the Cretaceous Formations of Scandinavia; The Surface Geology of Alaska, 565—The Name Huronian; Pre-Paleozoic Surface of the Archean Terranes of Canada; A Mesozoic Fish Fauna in New South Wales; A <i>Cimoliasaurus</i> from the Niobrara Cretaceous of Kansas; Pliocene Subsidence <i>versus</i> Glacial Dams; On Some New Fishes from South Dakota, 651—Elevation of America in the Cenozoic Periods; Discovery of Coal Near Dover, England; Occurrence of Texas Lignite; The Geological and Natural History Survey of Minnesota, 735—Geological Survey of New Jersey, 1890; Elevated Sea-Beach on Grand Cayman (<i>Illustrated</i>); New Acquisitions to the Eocene Fauna from Southern Patagonia; The Progress of Geology in the Years 1887–1888; Fossil Birds from the Equus Beds of Oregon, 815—The Desert Sandstone of Australia; Structure of the Piedmont Plateau; The Triassic of Massachusetts; The Relations of the Traps of the Newark System in New Jersey; The Iron Ore District of East Texas; Meniscotheriidae and Chalicotherioidea; The Family of <i>Astrapotheriidae</i> ; On a Skull of the <i>Equus excelsus</i> Leidy, from the Equus Bed of Texas; The Glacial Deposits at Hendon, England, 907—The California Cave Bear (<i>Illustrated</i>); The Work of White Ants in Australia; More New Mammalia from the Eocene of Patagonia, 997—Crystalline Rocks of Missouri; Sulak Gorge; Olenellus Zone in the Northwestern Highlands of Scotland; Origin of Petroleum; Stegocephalian Skull from the Kilkenny Coal Measures; A New Ichthyosaurus; Skull and Hind Extremity of <i>Pteranodon</i>	1119
<i>Geological News</i> : General, Archean, Paleozoic, Mesozoic, Cenozoic, 277, 363, 483, 570, 658, 738, 821	1124
<i>Mineralogy and Petrography</i> : Mineral Syntheses; Physical Mineralogy, 142—New Minerals, 138, 374, 659; Petrographical News, 138, 367, 571, 824, 1002; Mineralogical News, 368, 660, 827, 1006; Miscellaneous, 145, 574	830
<i>Botany</i> : Books for Young Collectors; A Study of the Snow-Plant; The Annual Report of the State Botanist of New York; How to Know Grasses by Their Leaves, 50—The Relative Altitudes of the Rocky and Appalachian Mountain Systems as Influencing the Distribution of Northern Plants; An Important Work On the Fungi; Ringing Trees: Botanical News, 146; Protoplasmic Physics; Alcoholic Material for Laboratory Work in Systematic Botany; A Field Manual of Botany, 376—North American Diatoms; The "Field Edition" of Gray's Manual; The Flora of the High Nebraska Plains, 484—Botany at the Washington Meetings, 914—The Flora of Chicago: The Action of Bacteria on the Rapid Souring of Milk During Thunder Storms; The Parry Herbariums; Palmer's Mexican and Arizona Plants of 1890; Three Months of Elementary Botany, 1010—Trees and Shrubs of the Basin of the Red River of the North; Bearberry in Central Nebraska	1128

<i>Zoology</i> : Abnormal Repetition of Parts; The Embryology of Spiders; Insects of Central Africa; Studies on Amphioxus; The Amphibian Blastopore; The Position of the Sun Grebes; Zoological Notes, 53—New California Fishes; The Epiglottis in Colubrine Snakes (<i>Illustrated</i>); Notes on the Classification of the Pigeons; Description of Two New Species of Rodents from Mexico; The Entepicondylar Bridge in Man, 153—Functions of Gemmiform Pedicellariæ of Echinoids; Hekaterobranchus; The Anatomy of Scutigera; The Balancers of Diptera; Nerves of Tortoise Shell; The Cannon-Bone of Ruminants, 279—Reproduction of Urnatella; The Growth of Corals; The Changes of the Salamander <i>Dicmyctylus viridescens</i> , 380—Plathelminthes; Hermaphroditism in the Crustacea; Observations on a Remarkable Development in the Mudfish (<i>Illustrated</i>); The Lower Jaw of Sphenodon; On the Development of the Male Copulatory Organs in Snakes (<i>Illustrated</i>); The Quadrate Bone; "Some of the Causes and Results of Polygamy Among the Pinnipedia"; Errata, 487—The Coloration of the Flounders; <i>Parmella etheridgei</i> ; The Spawning Season of San Diego Fishes; The Pineal Eye; Migration of Butterflies in Florida, 577—Motion in the Protozoa; Morphology of the Siphonophores; The Starfish Larva; Anatomy of the Synaptidæ; Genito-Intestinal Canal in Trematodes; Fertilization in the Cestodes; Regeneration in the Oligochaetes; Distribution of Magelona; Budding in Polyzoa; The Crystalline Style; The Position of Limulus; The Vertebrate Ear; Segmentation of the Vertebrate Head; Description of a New Species of Catostomus (<i>C. rex</i>) from Oregon; The End of the Urodele Tail; The Gila Monster; Recent Researches in the Herpetology of Africa, 664—Abnormal Duplication of Urosome in <i>Rana catesbiana</i> (<i>Illustrated</i>); Snakes in Banana Bunches; Description of a New Jumping Mouse from Nova Scotia and New Brunswick; Description of Three New Species of Mexican Bats (<i>Illustrated</i>), 740— <i>Sipunculus gouldii</i> ; <i>Sipunculus nudus</i> ; The Eye in Blind Crayfishes; "The Compound Eye of Crustaceans"; Eyes in Arcturus; The Northern Limits of the Scorpions; Glands in Orthoptera; Notes on Tunicates; The Affinities of Polypterus; The Pineal Organ of Ichthyophis and Protopterus; Foetal Period of the Seal; Extent of the South American Fresh-Water Fish Fauna; The Chromididæ of the Fresh Waters of Madagascar, 831—The Anatomy of Phagocata; Crustacea and Echinoderms of Japan; The Affinities of the Molluscs; The Head of Elasmobranchs; The Reproduction of the Conger; a New Species of Frog from New Jersey; Zoological Notes, 1015—Preservation of Color in Animals of a Collection; The Structure of Serpula; Metamerism in Hexapods; <i>Cottus beldingii</i> ; A New Diodont; Temperature and Number of Vertebrae in Fishes; Note on <i>Gyrinophilus maculicaudus</i> Cope	1131
---	------

Embryology: A New Text-Book on the Embryology of Invertebrates; Amphioxus; The Life-History of the Red Blood-Corpuscles; Appendages of the First Abdominal Segments of the Embryo Insects; Are the Arthropods the Ancestors of the Vertebrates? 56—Development of Mammals (*Illustrated*); The Embryology of Gecko; Theory of the Mesoderm, 162—Embryology of Limulus; of Phalangium; the Embryology of a Scorpion; Development of the Fresh-Water Sponge: *Descensus testicularum*; On the Urogenital System of the Crocodile and Turtle; The Development of *Cyanea arctica*, 282—On the Foetal Membranes of Testudinata; The Placenta of Rodents; On the Morphology of the Bilateral Ciliated Bands of the Echinoderm Larvæ, 381—The Later Larval Development of Amphioxus; Development of the Pancreas in Batrachia; Embryology of Glires, 496—Development of the Scyphostoma of the Scyphomedusæ; Body-Cavities of *Paludina vivipara*, 583—Development of Compound Ascidians; Development of the

	PAGE.
American Lobster, 670—Some Notes on the Breeding Habits and Embryology of Frogs, 753—Notes on the Development of Engystoma, 838—Studies in Cephalopods; The Regeneration of the Tail of Lumbriculus; Neuroblasts in the Arthropod Embryo; Morphological Notes from the Biological Laboratory of the Johns Hopkins University, 917—Embryology of the Sea Bass; The Development of Hydra; Morphology of the Vertebrate Head; Triple Fertilization in Egg of Domestic Fowl (<i>Illustrated</i>), 1020—A New Larval Form from Jamaica; Hatchesek's Interpretation of the Annelid Trochophore	1135
<i>Entomology</i> : A Review of Some Plum Curculio Literature, 63—Insects in Iowa; Indiana Insect Notes; Oviposition of the Apple Curculio (<i>Illustrated</i>), 168—Dr. Lintner's Sixth Report; Sexual Selection in Spiders; Oviposition in <i>Dectes spinosus</i> (<i>Illustrated</i>); Species of Hymenoptera; Papers by Miss Murtfeldt; American Tertiary Hemiptera; The Polished Harvest Spider (<i>Illustrated</i>), 293—Recent Publications; Osborn on Pediculi and Mallophaga; Scudder's Tertiary Insects; Packard's Forest Insects, 585—The "Arrow Weed" and Mexican "Jumping Bean," 673—The White Wax Habits of <i>Coccinella convergens</i> ; Transformations of Coleoptera, 761—Entomology at Washington, 922—"Biological Papers;" Lepidoptera of Buffalo; Kerosene Emulsion; Host-Plants of Aphididæ; Prof. Smith on the Rose-Chafer; Heteroptera of Tennessee; Outlines of Entomology; Entomological Personals; Recent Bulletins	439
<i>Physiology</i> : Vasomotor Nerves of the Portal Vein; Relations Between Molecular Weight, Molecular Structure, and Physiological Action; Life-History of Blood Corpuscles, 290—Note on Imperfect Instinct in Animals; An Instance of the Black Snake Attacking Man	384
<i>Psychology</i> : Professor Moll on Hypnotism; Was it Hallucination? The Origin of the Erect Tail in the Domestic Dog.	170
<i>Archæology and Ethnology</i> : The Societe d'Anthropologie at Paris, 73, 172—On a Certain Gesture of the Mouth Among the American Indians, 182—International Congress of Archæology and Prehistoric Ethnology, 387, 499, 587, 675, 764, 840, 929, 1031—The Munich Association; The Map of Prehistoric Bavaria, 395—The Mexican Tonalamatl; Huastec Language; Zapotec Language; Mixtec and Mije, 499—Remains of the Worship of Ashtarothe in Palestine; The Mika Operation, 593—Recent Discoveries of Egyptian Remains, 679—Preliminary Notes on the Archæology of Southwestern New Mexico, 768—Proceedings of the Section of Anthropology (H.) of the American Association for the Advancement of Science, 929—The Prehistoric Man of Spy; Continuation and Close of Proceedings of the American Association for the Advancement of Science	1034
<i>Microscopy</i> : Medullated Nerve-Fibres; Henneguy's Methods with Pelagic Fish Eggs; Bryozoa; Caryokinesis in Paramecium, 85—Methods for the Preservation of Pelagic Organisms, 183—The Nervous System of Convoluta; Osmic Carmine for the Histology of the Nervous System, 771—Fixation of the Methylinblue Stain; Vasale's Modification of Weigert's Method; Upson's Gold-Staining Method for Axis Cylinders and Nerve Cells; Methods of Preparing Rotifers, 846—Methods of Preserving Human Embryos	1142
PROCEEDINGS OF SCIENTIFIC SOCIETIES, 88, 185, 298, 399, 505, 593, 681, 849, 936,	1144
SCIENTIFIC NEWS, 188, 302, 408, 507, 594, 682, 773, 853, 1039,	1145
